---

Full Stack Web Developer with a focus on readability and functionality of code. Comfortable working independently as well as collaborating team projects. With each project, my aim is to provide simple, effective and well documented solutions to problems encountered. Confident in the ability to learn new and updated technologies and to analyze and creatively solve problems.

## TECHNICAL SKILLS

JavaScript, Node.js, Express, jQuery, React.js, GIT, GitHub, MongoDB, MySQL, Firebase, Handlebars, HTML5, CSS3, Bootstrap, Media Queries, APIs, Heroku, Visual basic.

## EDUCATION

**UNC Charlotte**, Charlotte, NC

### **Full Stack Web Development | Coding Certificate | 2019**

A 24-week intensive boot camp program focused on gaining technical programming and market-driven skills in HTML5, CSS3, ES5, ES6, jQuery, Bootstrap, Express.js, React.js, Node.js, Database Theory, MongoDB, and MySQL.

## PROJECTS

### **Taria-bot**

**Role:** Sole Developer

**GitHub:** <https://github.com/LardianGH/taria-bot>

A node inquirer based information retriever able to use axios and other packages to read APIs

- **Utilized:** Javascript, Node.js, Inquirer.js, Moment.js, Node-Spotify-api.

### **Burger**

**Role:** Sole Developer

**GitHub:** <https://github.com/LardianGH/burger> || **Heroku:**

<https://powerful-waters-02967.herokuapp.com>

A full stack application using SQL to post, put (update), get, and delete hamburger names. Handlebars are used to display the data coming back from the database.

- **Utilized:** Javascript, jQuery, Express, Express-Handlebars, SQL, JawsDB.

### **Group-learn**

**Role:** Full Stack Developer

**GitHub:** <https://github.com/lynnet3/Project-3> || **Heroku:** <https://grouplearn-pj3.herokuapp.com/>

A mern stack application allowing users to create requests to start a study group related to four main subjects, and allows others to respond with a reply.

- **Utilized:** Javascript, ReactJS, MongoDB, Mongoose, Express, Express-Session & Mongostore.

## Work Experience

**Willow Grove - Holiday Retirement**, Charlotte, NC

Server (2017-2018) || Kitchen helper (2018-2019)

I started as a server taking orders and bringing food to the residents, then cleaning the dining room after the meal. The residents as well as my co-workers really started to like me and after a year I was promoted to kitchen helper, where my duties now include meal prep, dishwashing, and helping out on the serving line. I also gained experience with housekeeping and light maintenance while taking the shifts of others who called in sick.
